Product Details

Raclette is a dish that comes to us from parts of Switzerland and France, where cheese rounds are heated and then scraped onto guests' plates for a delicious accompaniment to potatoes, meats, and more. Add this dish to your food establishment with this 21" Raclette Machine (RACL02) from Eurodib. This stainless steel machine is equipped with a horizontal adjustable heat case along with an adjustable cheese holder with tilt action, allowing your cheese to be warmed thoroughly prior to serving. Also included is a knife that is able to scrape away melted cheese easily. Utilizes a 5-15 NEMA plug.

Features

- Horizontal adjustable heat case
- Adjustable holder
- Made in France
- Holds 1/2 cheese wheel

Benefits

- Adjustable heat case for thorough heating
- Knife included for effortless scraping
- Holds 1/2 cheese wheel
