01

Foam

Today's chefs are looking for a new twist on plain white tableware that doesn't detract from the pristine finish it provides. The subtle white on white bubbled texture of Foam creates this point of difference, but retains the white finish so loved by chefs.

Stylish and practical in service, the textured finish negates unsightly thumbprints on plate edges – a clear benefit during service.

Foam is from the Dudson Fine China range, which combines the delicate qualities of fine bone china with the strength of vitrified tableware.

See 2019/20 Product Guide page 52

For full details and Ts & Cs, please see our current price list, call us or visit our website.

02

Ruff Lux

Inspired by chefs using the plate rim as part of the display area for a dish, the gold decoration on Ruff Lux represents a 'splash' of sauce by chef.

The decoration is itself the embodiment of something that could happen in real life, taking a brief unexpected moment and capturing it in a bold gold colour.

Ruff Lux is from the Dudson Fine China range, which combines the delicate qualities of fine bone china with the strength of vitrified tableware. Because

the decoration is gold coloured and does not contain metal, Ruff Lux is industrial dishwasher and microwave safe and will withstand the demands of a professional kitchen.

See 2019/20 Product Guide page 58

For full details and Ts & Cs, please see our current price list, call us or visit our website.

03

Mosaic

The reactive glazes of Mosaic produce a variance in effect and colour, so every piece retains a unique character. Although it looks hand-crafted, Mosaic is tough. Tough enough to stand up to everyday use in a professional kitchen environment.

Available on a selection of plates and bowls to showcase today's menus, Mosaic can easily be incorporated into an existing tableware setting. With the new addition of a 12oz (34cl) mug in all

five colour options, Mosaic has now been extended to include beverage service.

Choose from five colours: The subtle tones of Grey and Taupe complement the colours of Evo and Harvest Linen; the bolder Blue, Coral and Green have been chosen to add a splash of bright colour.

See 2019/20 Product Guide page 102

For full details and Ts & Cs, please see our current price list, call us or visit our website.

04

Ripple Grey

Ripple Grey is a natural progression from painting by hand, using an all-over reactive colour to create a subtle texture during the firing process. This textured finish gives it an artisan appearance whilst the colour is not too far out of the comfort zone for chefs who would normally favour white tableware.

Available on a selection of plates and bowls, Ripple Grey can be mixed and matched with existing white tableware, or try it with Mosaic Grey, Concrete or Evo Jet and Pearl to create your own unique style.

Ripple Grey is tough enough to stand up to everyday use in a professional kitchen environment and is from the Dudson Finest Vitrified Tableware range, so in-built quality is guaranteed.

See 2019/20 Product Guide page 100

For full details and Ts & Cs, please see our current price list, call us or visit our website.

Midnight Rose

Midnight Rose takes the idea of a traditional ceramic rose pattern and brings it bang up to date by limiting colours to a monochrome palette. The addition of a gold colour within the pattern gives Midnight Rose a glamorous and luxurious finish, perfect for a contemporary Afternoon Tea menu.

Available on a selected number of items perfect for Afternoon Tea service, the fine edge and modern decoration combine to give a contemporary interpretation to this most traditional of English pastimes.

Midnight Rose is from the Dudson Fine China range, which combines the delicate qualities of fine bone china with the strength of vitrified tableware.

For full details and Ts & Cs, please see our current price list, call us or visit our website.

06

*Harvest:
Blue, Mustard, Coral*

The options to mix and match Harvest have become even greater, thanks to the addition of plates and bowls in the bolder colours of the range – Blue, Mustard and Coral.

The current trend for sharing is covered by a variety of bowls in different shapes and sizes, now available across all seven colours and plain White. All items have the hand-finished detailing that underlines Harvest's rustic appeal. Each piece has unique features like 'wobbly' edges purposely built into the design. All items are hand-finished with a sponged rim (except White), which naturally drips to create a unique piece.

Harvest is from the Dudson Finest Vitriified Tableware range, so in-built quality is guaranteed.

Harvest Blue see 2019/20 Product Guide page 10
Harvest Mustard see 2019/20 Product Guide page 12
Harvest Coral see 2019/20 Product Guide page 14

For full details and Ts & Cs, please see our current price list, call us or visit our website.

07

Evo: Bronze

Reminiscent of an aged patina on bronze sculptures, Bronze is the latest decoration available in the Evo range.

The finished effect is created by using a reactive crystalline glaze. The crystals within the glaze respond differently to the firing process, creating a different finish every time. Because each piece is hand-dipped into the glaze, small marks are left where the items are held, which fire differently in the kiln, producing a unique item every time.

Available on selected items from across the Evo range, Bronze adds texture and tone. With the addition of Bronze to Ice, Sand, Pearl, Jet and Granite, Evo is now available in six finishes. Mix and match options across the range bring unique character to any dining style.

As part of our Finest Vitrified Tableware range, all items are covered by the Dudson Lifetime Edge Chip Warranty.

See 2019/20 Product Guide page 26

For full details and Ts & Cs, please see our current price list, call us or visit our website.

08

Evo: Ice

Chefs love posting pictures of their finished dishes on social media and a trend for blue plates came to the fore on Instagram and Twitter.

Ice is exactly what chefs are looking for to showcase their menus. Adding a touch of sophistication to the Evo palette, chefs can add a 'pop' of contemporary colour to the tabletop with Ice. Put food on it and Evo immediately springs to life. Its universal appeal lies in its ability to showcase any dish, whether in a traditional pub or a Michelin starred restaurant.

Evo has been designed with the appearance of hand-thrown pottery. Its homely charm and unpretentious style

sit perfectly in any dining room, whilst a variance in colour makes every piece of Evo unique.

Evo can withstand the tough conditions of a professional kitchen.

It goes without saying that every item is industrial dishwasher and microwave safe.

See 2019/20 Product Guide page 28

For full details and Ts & Cs, please see our current price list, call us or visit our website.

Concrete

09

Concrete

Concrete's soft grey complements a colour palette of neutral and earthy tones. The finish is reminiscent of polished marble and works beautifully with metals like copper and brass – both widely used to bring a little warmth to more functional or industrial interiors.

Concrete looks equally at home in a casual or fine dining setting and can be mixed and matched with Evo Ice, Pearl and Jet, or combined with Ripple Grey, Mosaic Grey and Curve for a more limited colour palette. Originally available on a selection of round plates

and bowls, we have now added three sizes of square plate to the range to provide greater flexibility in service.

Concrete is from the Dudson Finest Vitrified Tableware range, so in-built quality is guaranteed.

10

Rose

The quintessential floral band has been given a modern shabby chic makeover with Rose. The delicate design has an edgy feel, updating a traditional floral decoration for the 21st century.

Rose is available on a suite of beverage items from Precision, including an elegant footed cup. The fine edge and modern decoration combine to give a contemporary interpretation of the long-established English pastime of Afternoon Tea.

Rose is from the Dudson Fine China range, which combines the delicate qualities of fine bone china with the strength of vitrified tableware.

11

Baguette Black

The classic and timeless appeal of Baguette, originally designed for the bistros and brasseries of Paris, has been given an ultra-chic makeover with the addition of a matt black coating. Baguette Black is perfect for contemporary industrial/urban interiors.

See 2019/20 Product Guide page 152

MAISON
Rondeau

Baguette Gold

For the ultimate in luxury, take the smooth lines of Baguette and add a gold coating. The 'old gold' finish of Baguette Gold is perfect for vintage modern, shabby chic or industrial interior décor.

See 2019/20 Product Guide page 154

Baguette Vintage Stonewash

Baguette Vintage Stonewash adds an echo of the past to a contemporary or industrial interior with a distressed finish and charming rustic appearance.

See 2019/20 Product Guide page 156

Atlantic 2000

Comprising a comprehensive suite of items including servers, Atlantic 2000 is an effortless, uncomplicated design suitable for any type of dining service.

See 2019/20 Product Guide page 164

Cloud

Supremely functional and with well-balanced items, Cloud combines elegant unfussy design with practicality in service.

See 2019/20 Product Guide page 162

12

Cassiopea

The shimmering effect created by the facets of Cassiopea delivers instant impact to the tabletop, creating a sophisticated and trendy feel.

Glassware from Bormioli Rocco. Available in UK and Eire only.

Electra

Electra is a complete collection designed for the most demanding restaurateur. The modern design is ideal for an elegant contemporary table setting, and the technical characteristics address the more specific requirements of function and practicality.

Este

Intertwined straight lines and geometric patterns, balance and harmony make Este the perfect collection for every situation.

To see the item range, visit dudson.com.

Lounge

The sophisticated cut patterns and light effects of Lounge add a glamorous touch to any setting.

Wind

The energy of the wind moulds every surface, creating the Wind collection. Adding personality and charm to any trendy space, the uneven surfaces add texture to the tabletop.

Premium

The timeless profiles of Premium were designed in collaboration with sommeliers.

The aim was to create a glass for each type of wine in order to enhance the tasting experience. The collection's "profile of excellence" is enhanced by the use of innovative Star Glass, the perfect clarity and neutral colour highlighting excellent visual perception of every wine.
