

Providing superior quality kitchen equipment since 1996

## MANUAL HAMBURGER PRESS EURODIB HF130

This manual hamburger press is ergonomically designed for a comfortable grip and ease of use.

It features a sturdy handle for even pressure when preparing burgers.

You can adjust the height of the press for thinner or thicker patties.

Don't forget to take advantage of its built-in wallet to keep waxed paper close at hand.

It can be used to prepare not only hamburgers, but also other types of patties, such as vegetable or fish patties.

### Construction

- Robust body made of anodized aluminum alloy
- Stainless steel wafer mould and foil holder with 5-inch diameter
- Rubber handle
